

Wireless Smart Home Control System with Future Update Capability

By Safa Hamdare

LAP Lambert Academic Publishing Jan 2015, 2015.

Taschenbuch. Book Condition: Neu. 220x150x3 mm. Neuware - Monitoring appliances and other home and office electronics remotely over the Internet is no longer a futuristic dream. Though not yet pervasive, Internet connected systems for homes and businesses are on the market and evolving quickly. As the networking technologies are developing rapidly, more users want to control their home appliances from outside the home. In this book, proposed system lets you monitor your home from any location using an internet. It provides Two Subsystems:Controlling devices over the internet using IP protocol and devices controlled through a mobile application using GPRS protocol. The system enables the user to check, and if needed, change the current status of the Appliance at the same time or at a specified time in the future via a user interface device.The design of this system is based on an embedded controller which is connected to a PC-based home Web server via RS232 serial port. The software of the system is based on the combination of Java 1.6, J2me and PHP 5.0. The system is scalable and allows additional appliances to be added to it with no major change to its...

Reviews

Without doubt, this is the very best job by any article writer. It typically does not cost too much. You are going to like just how the blogger write this pdf.

-- **Jazmyn Beier II**

This book can be worth a read through, and far better than other. It can be writter in easy phrases instead of confusing. You will not really feel monotony at at any moment of your respective time (that's what catalogs are for concerning if you check with me).
