Pan Macmillan. Paperback. Book Condition: new. BRAND NEW, An Astronaut's Guide to Life on Earth (Main Market Ed), Chris Hadfield, Colonel Chris Hadfield has spent decades training as an astronaut and has logged nearly 4,000 hours in space. During this time he has broken into a Space Station with a Swiss army knife, disposed of a live snake while piloting a plane, been temporarily blinded while clinging to the exterior of an orbiting spacecraft, and become a YouTube sensation with his performance of David Bowie's 'Space Oddity' in space. The secret to Chris Hadfield's success - and survival - is an unconventional philosophy he learned at NASA: prepare for the worst - and enjoy every moment of it. In his book, An Astronaut's Guide to Life on Earth, Chris Hadfield takes readers deep into his years of training and space exploration to show how to make the impossible possible. Through eye-opening, entertaining stories filled with the adrenaline of launch, the mesmerizing wonder of spacewalks and the measured, calm responses mandated by crises, he explains how conventional wisdom can get in the way of achievement - and happiness. His own extraordinary education in space has taught him some counterintuitive lessons: don't visualize success, do care what others think, and always sweat the small stuff. You might never be able to build a robot, pilot a spacecraft, make a music video or perform basic surgery in zero gravity like Colonel Hadfield. But his vivid and refreshing insights in this book will teach you how to think like an astronaut, and will change, completely, the way you view life on Earth - especially your own.
