Reviews

This published publication is fantastic. it had been writtern very perfectly and useful. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Junius Herman)

DYSLEXIA IN PRACTICE: A GUIDE FOR TEACHERS

Springer Science+Business Media, United States, 2000. Paperback. Book Condition: New. 2000 ed.. 232 x 142 mm. Language: English . Brand New Book. Dyslexia is a specific learning difficulty that hinders the learning of literacy skills. This problem with managing verbal codes in memory is neurologically based and tends to run in families. Other symbolic systems, such as mathematics and musical notation, can also be affected. Dyslexia can occur at any level of intellectual ability. It can accompany, but is not a result of, lack of motivation, emotional disturbance, sensory impairment or meagre opportunities. The effects of dyslexia can be alleviated by skilled specialist teaching and committed learning. Moreover many dyslexic people have visual and spatial abilities which enable them to be successful in a wide range of careers. The appearance of this book is to be welcomed. It represents a full statement of the best practice to be found in the many kinds of intervention that are conducted with dyslexic students. It addresses some fundamental questions that are seldom asked and much of what the skilled teacher knows and does is set down here in print for the first time. From the Preface: Collectively, the chapters provide a synthesis of current practice focusing on how to assess and treat the symptoms of dyslexia, guided by a proper understanding of the cognitive and linguistic weaknesses that underpin the condition. The book makes clear that the backbone of intervention for dyslexia is a highly structured multisensory approach that teaches reading and spelling skills at the appropriate rate. However, it is also explicit in pointing out that such a programme must be delivered with due attention to individual differences in the other cognitive skills that contribute to literacy development, and take account of the learner's style, interests and not least their confidence and self-esteem. This...
