Opportunities to Reduce Greenhouse Gas Emissions through Materials and Land Management Practices September 2009 Transport, Other Passenger Transport, Building Heating, Ventilation, Air Conditioning (HVAC) and 38 Lighting, and Use of Appliances and Devices. This is helpful for framing opportunities to reduce GHG emissions through prevention oriented mitigation strategies that act across an entire system, complementing the sector based allocation shown in Figure 1. Both the sector based and systems based views provide critically important insights for successful climate mitigation strategies. Materials Management Two of the slices in the systems based pie chart represent emissions related to materials management, 39 as shown in Figure 3: Provision of Goods and Provision of Food. The materials management section of the pie chart represents U. S. emissions related to the extraction or harvest of materials (e. g. , mining, forestry, and agriculture), the production and transport of goods and food, the provision of...
