## WHITE-HOT GRUEL

Createspace, United States, 2012. Paperback. Book Condition: New. 203 x 133 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Plot introduction In the nineties, the esteemed Hungarian scientist Otto Fecis (FETS-eesh) came to England and established a research facility - the Fecis Institute. His goal was to develop solutions to the world food problem, and to this end, he built up a diverse staff of bold, leading-edge researchers. By the early years of the twenty-first century, the Fecis Institute could boast five distinct departments, but for all their daring ideas and hard graft, they had yet to deliver, and their funding was starting to dry up. It is the autumn, and a wealthy local businessman has been invited round for a guided tour, and it is no understatement to say that if he declines to invest, the Institute may not survive the winter. But the staff will have their work cut out in trying to persuade this rational gentleman and his wife that tinkering with pot plants is the answer; that biscuits are the answer; that a supercomputer should make the planet s food-related decisions; that wheat can be reclaimed from chaff using nanotechnology; or - last but not least - that all matter can be transubstantiated into pork.
