By Arthur A Noyes

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Course of Instruction in the Qualitative Chemical Analysis of Inorganic Substances This text-book is an attempt, on the experimental side, to train the student of qualitative analysis in careful manipulation and exact methods of procedure such as are commonly employed in quantitative analysis. It is an attempt, on the theoretical side, to make clear to the student the reason for each operation and result, and to accustom him to apply to them the laws of chemical equilibrium and the principles relating to the ionization and complex-formation of substances in solution. It is believed that in both these ways the educational value of the subject is greatly increased. The book is divided into two main Parts, entitled The Course of Instruction and The System of Analysis. In presenting the System of Analysis the plan adopted in the earlier editions of this book has been followed, namely, that of separating sharply the description of the operations from the discussion and explanation of them. The operations are described with as great definiteness as possible in short paragraphs...
