E55 2009o OCLC Number: (OCoLC)427915587 Subject: Gas industry -- Energy consumption -- Standards -- United States. Excerpt: . . . 11 reduction standard, renewable and advanced energy standards, and greenhouse gas 4 reporting and planning requirements. I was appointed by Governor Strickland to the Ohio Commission in April 2007. During the twenty-five years preceding my appointment, I was a consultant advising utilities and regional transmission organizations on operational and regulatory issues and in the development of regional electricity markets, served as one of the principal policy consultants to the U. S. Department of Energy during the early years of electric industry restructuring, and worked as a Senior Attorney and the Senior Energy Policy Advisor for Ohios residential utility consumer advocate. Today, I will briefly address the foundations of economic and regulatory policy related to energy efficiency, describe Ohios energy efficiency standard, and address how to develop an effective State - Federal partnership, in which Federal efficiency legislation could provide a catalyst for needed efficiency improvements, while pre-serving the essential role of the States in regulating the delivery and retail sale of electricity and natural gas. I ENERGY EFFICIENCY A POLICY FRAMEWORK. : In the last few years, markets for natural gas and for the skills, materials, and fuel needed by our electric power system have become global. In the next few decades, demand will increase significantly for the services - light, heat, and drive power - that energy provides, at a time when we will need greater infrastructure investment and may be making sharp reductions in greenhouse gas emissions. These changes present major challenges to our ability to provide American consumers and...
